Read the passage carefully and answer the questions that follows:

The reformer must know that what moves people is the authentic life, not mere writing. The newspapers and journals that Lokmanya Tilak and Gandhiji ran the books they wrote, sold little, but had enormous effect. Their writing was known to reflect and be just an extension of their exemplary lives. It was the authenticity of their lives which lent weight to their message, to their example. All knew that their lives were an integral whole - they were not moral in public life and lax in private, nor vice versa. They were not full of pious thoughts and sacred resolutions within the walls of a temple and cheats outside.

A writer who is merely entertaining his readers, even one who is merely informing them, can do what he wants with the rest of his life. But the writer who sets out to use his pen to reform public life cannot afford such dualities.

Here is the testimony of one great man – Gandhiji – about the influence of another, Lokmanya Tilak: “I believe that an editor who has anything worth saying and who commands a clientele cannot be easily hushed. He delivers his finished message as soon as he is put under duress. The Lokmanya Spoke more eloquently from the Mandalay fortress than through the columns of the printed *Kesari*. His influence was multiplied thousandfold by his imprisonment and his speech, and his pen had acquired much greater power after he was discharged than before his imprisonment. By his death we have been editing his paper without pen and speech through the sacred resolution of the people to realise his life’s dream. He could possibly have done more if he were today in the flesh preaching his view. Critics like me would perhaps be still finding fault in this expression of his or that. Today his message rules millions of hearts which are determined to raise a permanent living memorial by the fulfilment of his ambition in their lives.”

The following data of an economy is given:

Consumption function $C = 300 + 0.8(1-t)Y$;

Investment Function $I = 900 - 50i$;

Government expenditure $G = 800$;

Marginal tax rate $t = 0.25$

The IS equation corresponding to the above is:

1. $Y = 5000 + 125i$

2. $Y = 5000 - 125i$

3. $Y = 4250 - 125i$

Given below are two statements: one is labelled as **Assertion A** and the other is labelled as **Reason R**.

Assertion A: General equilibrium is attained in an economy when demand equals supply in all markets simultaneously.

Reason R: In a general equilibrium model, relative prices cannot be determined.

In the light of the above statements, choose the *most appropriate* answer from the options given below:

1. Both **A** and **R** are correct and **R** is the correct explanation of **A**
2. Both **A** and **R** are correct but **R** is NOT the correct explanation of **A**

Given below are two statements: one is labelled as **Assertion A** and the other is labelled as **Reason R**.

Assertion A: If a proposition P implies proposition Q, then we can say that P is a sufficient condition for Q or $P \Rightarrow Q$

Reason R: For proposition Q to be true it is sufficient that P is true i.e., Q is a necessary condition for P.

In the light of the above statements, choose the *most appropriate* answer from the options given below:

1. Both **A** and **R** are correct and **R** is the correct explanation of **A**
2. Both **A** and **R** are correct but **R** is NOT the correct explanation of **A**
3. **A** is correct but **R** is not correct
4. **A** is not correct but **R** is correct

नीचे दो कथन दिए गए हैं: एक **अभिकथन (Assertion A)** के रूप में लिखित हैं तो दूसरा उसके **कारण (Reason R)** के रूप में:

अभिकथन A: यदि किसी प्रमेय P से प्रमेय Q अभिप्रेत है, तब हम यह कह सकते हैं कि P, Q अथवा $P \Rightarrow Q$ के लिए यथेष्ट शर्त है।

कारण R: प्रमेय Q के सत्य होने के लिए यह पर्याप्त है कि P सत्य है अर्थात् P के लिए Q आवश्यक शर्त है।

उपरोक्त कथन के आलोक में, नीचे दिए गए विकल्पों में से **सबसे उपयुक्त उत्तर** का चयन कीजिए:

1. A और R दोनों सही हैं और R, A की सही व्याख्या है
2. A और R दोनों सही हैं और R, A की सही व्याख्या नहीं है
3. A सही है लेकिन R सही नहीं है
4. A सही नहीं है लेकिन R सही है
